

Scenario:

A company creates presentation files over several days as follows:

Day 1 → PPT1

Day 2 → PPT2

Day 3 → PPT3

Day 4 → PPT4

Day 5 → PPT5 and PPT6

The company uses three backup methods: Incremental, Differential, and Synthetic.

Task:

Complete the table below by:

1. Indicating the files backed up each day for:
 - Incremental Backup
 - Differential Backup
 - Synthetic Backup
2. Indicating the files required to restore the system after a failure on Day 5

Assume:

- A Full Backup is taken on Day 1
- A Synthetic Full Backup is created on Day 5

Provide your answers by completing the following tables.

Day	Files Created	Incremental Backup	Differential Backup	Synthetic Backup
Day 1	PPT1			
Day 2	PPT2			
Day 3	PPT3			
Day 4	PPT4			
Day 5	PPT5, PPT6			

2. Files Required for Restore

Day	Incremental Backup	Differential Backup	Synthetic Backup
Day 5			

Instructions:

- Write only file names
- For “Files Required for Restore”, indicate what is needed to recover all data after Day 5 failure
- Synthetic backup applies only on Day 5
